### **Akashic Records Release Form** - please read, sign & return before session

The Akashic Records are the recording of the Soul's journey since inception, in this life and all others, as well as the probabilities for actualizing inner potentials that have perhaps remained hidden until now. It is referred to in most ancient spiritual teachings by various names; for example in the Christian Bible as "The Book of Life."

An Akashic Records consultation consists of opening the Records of your soul, which can only happen with your permission, and allowing the information from the Record Keepers to come forward. The perceptions, insights and guidance you receive can be useful in mundane or spiritual matters, for big things or little things, all contributing to your understanding of the patterns, issues, relationships, and potentialities in your life. A Record Reading is particularly helpful in resolving current challenges. It will bring your attention and energy into the present moment, which allows you to focus on the big picture of life purpose as well as handling the details of everyday living. Readings always assist you in gaining clarity to assist your personal and spiritual growth, in ways that serve the highest good.

Your Akashic Records are accessed with a prayer and I consider it a sacred honor to read them for you. Because the information in your Records is so vast, it is essential that you write out a list of questions before we meet, the more specific the better. Take time to reflect on areas of your life in which you are facing challenges and ask what you really want to know. Your questions, as well as your openness for new perspectives, determine what information is made available from your Record Keepers. That information will always be delivered with love, respect and compassion. A sample list of questions to help you formulate your own are also available.

All counsel and healing given in an Akashic Reading is presented in order to assist you and will be kept confidential by me. You may choose to share this experience with others. However, know that you alone are responsible for the results of sharing the information and for reviewing this session in the context of your own life. You may notice the effects of the session immediately, or even months later. Being in the energy of your Records, in itself, will bring healing, whether it is conscious or not. I can record the Akashic phone sessions in MP3 format if requested, and will happily email you the mp3. Thank you in advance for the honor of serving you in this manner.

Your signature below gives me consent to open your Akashic Records during our appointment, and relieves me, Louisa A. Dyer, of all responsibility, legal or otherwise, for how you respond to or what you choose to do with the information given from your Record Keepers. Please complete all lines below. Thank you!
